

PROVEN. DEPENDABLE. RELIABLE.

At Original Saw Company, we are re-thinking how cutting is done. Through analysis, industry consultation and innovative engineering, we have designed safer cutting for the 21st century. All of our products are manufactured in the USA by our skilled employees that make up the Original Saw team. We care about the products that we make and that customers are satisfied with their purchase.

As Original Saw Company looks towards the future, we reflect on the successes of the past. By building a superior product, we continue to manufacture quality, American-made products for the wood and metal working industries. We pride ourselves in innovative technologies and forward thinking to enhance work places locally and throughout the world.

CONTRACTOR DUTY SERIES RADIAL ARM SAWS

The Contractor Duty Radial Arm Saw Series is an industrial rated machine that has the versatility to crosscut, bevel cut, miter cut and swivel to a rip position (needs rip kit to allow ripping) to precisely and accurately cut down panels. This machine is well suited for cutting material up to 3" deep as well as cutting off 24" wide panels for squaring shelving and doors and other applications.

This series is well suited for use in custom cabinet shops and school vocational programs.

This Contractor Duty Series Radial Arm Saw continues to be a workhorse with a TEFC motor, internal automatic brake and a durable powder coated finish. It has the best cut quality in its class and is a precise cutting machine with repeatable accuracy that can be depended on day-after-day for years to come.

These machines are fully assembled, tested in The Original Saw Company's facility and then packaged. This makes setting up your saw a snap.

Optional Accessories

- Front Lower Elevation Systems
- Dust Collection Shroud
- OS Series Measuring Systems
- Keyed E-Stop for Limiting Usage
- HDPE Black Plastic Table
- OS Series Roller Extension Tables
- OS Series Flat Extension Tables
- OS Series Fixed Foot and Flip Foot available for Measuring Systems
- Rip Conversion Kit
- Saw Blades
